SUMMARY

BSc Forestry graduate with hands-on experience in community forestry, field-based data collection, and stakeholder coordination with local governments and CFUGs. Experienced in participatory approaches, household surveys using digital tools, and grassroots conservation education across communities in Nepal's mid-hill districts. Familiar with monitoring and data management systems (KoBoToolbox, Survey Solutions). Committed to community-centred natural resource management and inclusive development.

EDUCATION

Bachelor of Science in Forestry | 2021 - 2025

College of Natural Resource Management, Katari, Udayapur

Relevant Coursework: Disaster Management, Watershed Management, Community Forestry, Forest Ecology, Environmental Impact Assessment, GIS & Remote Sensing

B.Sc. Thesis: Landslide Susceptibility Mapping using GIS-Based Frequency Ratio Method in Udayapur District

- Conducted a comprehensive disaster risk assessment using GIS and spatial analysis
 - Analyzed 11 causative factors: slope, aspect, elevation, lithology, land use, drainage, rainfall, NDVI, distance to roads, rivers, and faults
 - Compiled and validated landslide inventory through satellite imagery and field verification
 - Produced high-resolution hazard susceptibility maps for local disaster risk reduction planning
 - Demonstrated proficiency in ArcGIS, QGIS, remote sensing, and DEM analysis
-

"Evaluating Timber Volume Discrepancies in Teak Plantations of the Sagarnath Forest Development Project, Nepal: A Comparative Study"

Co-author | *Iranian Journal of Forestry* | DOI: [10.22034/ijf.2025.492785.2023](https://doi.org/10.22034/ijf.2025.492785.2023)

EXPERIENCE

Student Intern | Division Forest Office, Udayapur | Feb 2025 - Jun 2025

- Prepared technical field reports, forest inventory documentation, and compliance monitoring records

- Coordinated stakeholder meetings with Community Forest User Groups (CFUGs)
- Assisted in preparing GIS-based reports and maintained organized documentation systems
- Supported field monitoring activities and maintained compliance documentation aligned with programme reporting requirements

Volunteer - Conservation Education | Small Mammals Conservation and Research Foundation | Sep 2023 - Sep 2024

- Managed field-level monitoring and data collection from 500 households using digital survey tools — consistent with MEAL system requirements

Secretary | Bird Conservation Nepal, Katari Branch | Feb 2024 - Dec 2024

- Managed organizational communications and event coordination
- Maintained organized records of activities and documentation

Graphic Designer | Nepalese Youth for Climate Action - Udayapur | Jan 2023 - Dec 2024

- Designed promotional materials, infographics, and digital content for climate campaigns
- Created advertising materials for school outreach events and environmental programs

TRAINING

"5 Days Scientific Writing and Data Analysis Session" | Wildlife Conservation Society, CNRM Katari | Jun - 2023

- Completed intensive training in scientific writing techniques and data analysis methods
- Enhanced skills in research methodology, academic writing standards, and statistical analysis

SKILLS

Technical & Analytical Skills

- **GIS & Spatial Analysis:** ArcGIS, QGIS, Google Earth Engine, GPS mapping
- **Remote Sensing:** Satellite imagery analysis, change detection, NDVI analysis
- **Data Management:** Survey Solutions, MS Excel, statistical analysis
- **Hazard Mapping:** DEM analysis, slope analysis, multi-criteria evaluation
- **Technical Documentation:** Report writing, proposal development, scientific writing

Languages: Nepali (Native), English (Fluent)
